DIAMOND HILL

INVESTED IN THE LONG RUN

Team

Austin Hawley, CFA
Portfolio Manager

Brian Fontanella, CFA
Portfolio Specialist

Philosophy and Process Highlights

Under our intrinsic value philosophy, we:

- Treat every investment as a partial ownership interest in that company
- Seek to always invest with a margin of safety
- Possess a long-term investment temperament
- Recognize that market price and intrinsic value tend to converge over a reasonable period of time

Portfolio Guidelines

- Typically 40–60 positions
- Maximum position size is 7%
- Top 10 holdings are typically greater than 30% of net assets
- Maximum industry exposure is 20%
- Maximum sector exposure is 30%

Market Capitalization

The portfolio typically invests in companies with a market capitalization of \$5 billion or greater.

Top Ten Equity Holdings¹

	Sector	% of Net Assets
American International Group, Inc.	Financials	4.8
Abbott Laboratories	Health Care	4.4

Berkshire Hathaway, Inc. (CI B)	-0.4	4.3
CarMax, Inc.	-0.4	2.4
Diamondback Energy, Inc.	-0.3	1.9
Aon PLC (CI A)	-0.3	3.2

Margin of safety is a principle of investing in which an investor only purchases securities when their market price is significantly below their intrinsic value. In other words, when the market price of a security is significantly below your estimation of its intrinsic value, the difference is the margin of safety.

¹ Securities referenced may not be representative of all portfolio holdings. The reader should not assume that an investment in the securities was or will be profitable.

² Cash & Other may include cash, treasuries, money market funds and short duration fixed income funds.

Diamond Hill Capital Management, Inc. (DHCM) is an investment adviser registered with the Securities and Exchange Commission and a wholly owned subsidiary of Diamond Hill Investment Group, Inc.; registration does not imply a certain level of skill or training. DHCM provides investment management services to individuals and institutions through mutual funds, separately managed accounts, collective investment trusts, a private fund, a closed-end interval fund and other pooled vehicles including subadvised funds and model delivery programs. A complete list and description of all composites and policies for valuing investments, calculating performance and preparing GIPS reports is available upon request. To receive a complete list and description of all Diamond Hill composites and/or a GIPS® report, contact Scott Stapleton at 614.255.3329, sstapleton@diamond-hill.com or 325 John H. McConnell Blvd., Suite 200, Columbus, OH 43215. A list of broad distribution pooled funds is available upon request. In addition, a list of limited distribution pooled fund descriptions is available upon request. The Large Cap Composite is comprised of discretionary, fee-paying, non-wrap accounts managed according to the firm's Large Cap equity strategy. The strategy's investment objective is to achieve long-term capital appreciation by investing in large capitalization companies selling for less than our estimate of intrinsic value. The composite typically invests in large capitalization companies, which are defined as companies with a market capitalization of \$5 billion or greater. The composite results reflect the reinvestment of dividends, capital gains and other earnings when appropriate. Composite returns and benchmark returns are presented gross of withholding taxes on dividends, interest income and capital gains. Returns are calculated using US Dollars. Net returns are calculated by reducing the gross returns by the highest stated fee in the composite fee schedule. Only transaction costs are deducted from gross of fees returns. Prior to 30 September 2022, actual fees were used in calculating net returns. All net returns were changed retroactively to reflect the highest fee in the composite fee schedule. The Russell 1000 Value Index is the benchmark. This index measures the performance of US large-cap companies with lower price/book ratios and forecasted growth values. The Russell 1000 Index is shown as additional information. This index measures the performance of roughly 1,000 US large-cap companies. The indexes are unmanaged, market capitalization weighted, include net reinvested dividends, do not reflect fees or expenses (which would lower the return) and are not available for direct investment. Index data source: London Stock Exchange Group PLC. See diamond-hill.com/disclosures for a full copy of the disclaimer. **The performance data quoted represents past performance; past performance does not guarantee future results.** GIPS® is a registered trademark of CFA Institute.
